**Reasons
to Join PIOGA**

A membership in the Pennsylvania Independent Oil & Gas Association provides your company with multiple benefits, year in and year out -- the most important of which is to support a healthy, strong and unified oil and natural gas industry in the Commonwealth. We achieve that through a number of important advocacy efforts, programs and events.

Here are the top reasons to make an investment in a PIOGA membership a priority for your company:

- **Legal:** Our general counsel acts as YOUR law firm and is always just a phone call away
- **Regulatory:** We monitor state agencies and meet with their leaders to advance your interests
- **Legislative:** Our staff and contract lobbying firm know the drill in the halls of the State Capitol
- **Market Development:** We focus on finding new market opportunities and working to overcome challenges
- **Education/Training:** We conduct more than 10 conferences and specialized training programs annually to meet your needs
- **Communication:** We represent the industry in the media and report timely and important information to you
- **Networking:** Our numerous events allow you to stay connected to professionals from across the industry
