

SPRING MEETING

April 18, 2024 | Rivers Casino Pittsburgh

CLIMATE, COMMODITIES & CHAOS Threats to a Strong U.S. Energy Game Plan

As the oil and gas industry changes, it's crucial to stay ahead of the curve. From the industrial revolution to the current day, fossil fuels have seen a dramatic climate shift due to changes in regulations, consumer preferences, government intervention and economics. Industry commodities are headed to a different and uncertain place – which can be seen through market sentiment, prices, production, and corporate actions such as mergers. The future of energy is in complete disorder and confusion – the definition of chaos. The threats to the industry seem overwhelming but together we can create a strong game plan.

PIOGA presents 'Climate, Commodities and Chaos – Threats to a Strong U.S. Energy Game Plan' an all-day conference to help the industry in Pennsylvania stay ahead of the curve.

- ◆ General Business Sessions
- ◆ Exclusive Exhibit Area
- ◆ State and Federal Updates
- ◆ Opening & Keynote Speakers
- ◆ Exhibitor & Reception
- ◆ Fun in the Casino
